*Journal of Forecasting, Vol. 14, iii–vi (1995)*

# Contents

## Volume 14, Issue Nos 1–7
## JOURNAL OF FORECASTING

*Issue No. 1, January*

**The Use of Leading Indicators for Forecasting and Analysis: International Interdependence of Business Cycles in Manufacturing Industry:** *J. M. Berk and J. A. Bikker* . . . . . 1

**Combining Experts' Opinions using a Normal–Wishart Model:** *M. P. Wiper and S. French* . . . . . 25

**A Successive Filtering Technique for Identifying Long-term Trends:** *V. Assimakopoulos* . . . . . 35

**Modelling and Forecasting Time Series with a General Non-normal Distribution:** *A. L. Swift* . . . . . 45

**Correspondence: On the Selection of Error Measures for Comparisons Among Forecasting Methods:** *J. S. Armstrong and R. Fildes* . . . . . 67

**A Reply to Armstrong and Fildes:** *M. P. Clements and D. F. Hendry* . . 73

*Issue No. 2, March*

**Forecasting Volatility in Commodity Markets:** *K. F. Kroner, K. P. Kneafsey and S. Claessens* . . . . . 77

**Forecasting Growth with Time Series Models:** *D. Pena* . . . . . 97

**Testing Cumulative Prediction Errors in Event Study Methodology:** *J. A. Coutts, T. C. Mills and J. Roberts* . . . . . 107

**Quarterly Forecasts of the Italian Business Cycle by Means of Monthly Economic Indicators:** *G. Parigi and G. Schlitzer* . . . . . 117

**Professional Economic Forecasts: Are They Worth Their Costs?:** *G. Leitch and J. E. Tanner* . . . . . 143

Indexed or abstracted by 'Anbar Abstracts', 'COREJ', 'Cambridge Sci. Abstracts', 'Current Contents', 'Current Index to Statistics', 'Executive Sciences Inst. Inc.', 'Int. Abst. in Operations Research', 'Management Contents Inc.', 'Public Affairs Info Service', 'Social Sciences Citation Index', 'Sociological Abstracts Inc.', 'Statistical Theory & Method Abstracts', 'VINITI-USSR Acad. of Sciences'.

*Issue No. 3, May*

**Vector Autoregression Modelling and Forecasting:** *K. Holden* . . . . . 159

**A BVAR Model for the Connecticut Economy:** *P. Dua and S. C. Ray* . . . . . 167

**BVAR as a Category Management Tool: An Illustration and Comparison with Alternative Techniques:** *D. J. Curry, S. Divakar, S. K. Mathur and C. H. Whiteman* 181

**Structural, VAR and BVAR Models of Exchange Rate Determination: A Comparison of Their Forecasting Performance:** *N. Sarantis and C. Stewart* . . 201

**Forecasting US Home Sales Using BVAR Models and Survey Data on Households' Buying Attitudes for Homes:** *P. Dua and D. J. Smyth* . . . . . 217

**Combining VAR Estimation and State Space Model Reduction for Simple Good Predictions:** *P. D. Gilbert* . . . . . 229

**Business Cycle Analysis and Forecasting with a Structural Vector Auto Regression Model for Wales:** *C. Ioannidis, J. Laws, K. Matthews and B. Morgan* 251

**Forecasts of Inflation from VAR Models:** *R. H. Webb* . . . . . 267

**An Integrated Bayesian Vector Autoregression and Error Correction Model for Forecasting Electricity Consumption and Prices:** *F. L. Joutz, G. S. Maddala and R. P. Trost* . . . . . 287

**Modelling Multivariate Cointegrated Systems: Insights from Non-linear Dynamics:** *J. P. Pinder and G. L. Shoesmith* . . . . . 311

*Issue No. 4, July*

**Forecasting Industrial Production Using Non-linear Methods:** *J. D. Byers and D. A. Peel* . . . . . 325

**A State Space Approach to Forecasting the Final Vintage of Revised Data with an Application to the Index of Industrial Production:** *K. D. Patterson* . . . . . 337

**Prediction of Final Data with Use of Preliminary and/or Revised Data:** *R. S. Mariano and H. Tanizaki* . . . . . 351

**Backpropagation in Time-series Forecasting:** *G. Lachtermacher and J. D. Fuller* . . . . . 381

**Reconfigurable Combined Forecasts in a Non-stationary Inflationary Environment:** *V. Y. Volkov and Y. M. Gladkov* . . . . . 395

**Finite Sample Forecast Results for Vector Autoregressive Moving Average Models:** *G. C. Reinsel* . . . . . 405

*Issue No. 5, September*

**Prediction Intervals for Growth Curve Forecasts:** *N. Meade and T. Islam* . . . . . 413

**Highest-density Forecast Regions for Non-linear and Non-normal Time Series Models:** *R. J. Hyndman* . . . . . 431

**The Anchor and Adjustment Heuristic in Time-series Forecasting:** *M. Lawrence and M. O'Connor* . . . . . 443

**Modifying Quantitative Forecasts of Livestock Production Using Expert Judgements—An Application to the Australian Lamb Industry:** *D. T. Vere and G. R. Griffith* . . . . . 453

**Forecasting Technique Familiarity, Satisfaction, Usage, and Application:** *J. T. Mentzer and K. B. Kahn* . . . . . 465

*Issue No. 6, November*

**An Assessment of the Economic Value of Non-linear Foreign Exchange Rate Forecasts:** *S. Satchell and A. Timmermann* . . . . . 477

**Cointegration, Error-correction Models and Forecasting Using Realigned Foreign Exchange Rates:** *N. L. Joseph* . . . . . 499

**Can Purchasing Power Parity Help Forecast the Dollar?:** *S. J. Cochran and R. H. DeFina* . . . . . 523

**A Re-evaluation of the Quasi-Bayes Approach to the Linear Combination of Forecasts:** *A. E. Faria and R. C. Souza* . . . . . 533

**Level Shifts, Temporary Changes and Forecasting:** *F. J. Trívez* . . . . 543

**Announcement** . . . . . 551

**Call for Papers** . . . . . 552

*Issue No. 7, December*

**Lead-Lag Relationship Between Spot Index and Futures Price of the Nikkei Stock Average:** *Y. K. Tse* . . . . . 553

**The Decomposition of Forecast in Seasonal ARIMA Models:** *A. Espasa and D. Peña*. . . . . 565

**Predicting Nominal Variable Relationships with Multiple Response:** *U. N. Umesh* . . . . . 585

**Judging the Probability that the Next Point in an Observed Time-series will be Below, or Above, a Given Value:** *F. Bolger and N. Harvey* . . . . . 597

**Announcement and Call for Papers** . . . . . 609

**Author Index** . . . . . 611

**Keyword Index**. . . . . 612

**Volume Contents**. . . . . iii
